# What Shoe Are You?

- ▶ Do you bring the party with you when you enter the room... or do you cringe at the idea of meeting strangers?
- ▶ Are you the person others count on to lead the troops to victory... or do you often feel like the troop just marched right over you?
- ▶ Have you ever wondered what all the fuss is about... or are you the person that usually causes the fuss?

If the answer to any of these questions is yes, then **What Shoe Are You?** can provide the insight you need to understand and accept, yourself and others better. Discovering the four Temperament Shoes is an important secret to building better relationships and self image.

**Clown Shoe** - Fun Loving, Craves Attention

**All Business Shoe** - No Nonsense, Very Organized

**Combat Boot** - Success Driven, Take No Prisoners Attitude

**House Shoe** - Peace At All Costs, Comfortable

Once you've learned to "Buff and Polish" your own Temperament Shoes, you'll find that you have much more tolerance and appreciation for the different paths others choose to walk.
